

SWIGGY CASE STUDY

Consulting

Swiggy Market and Competitor Analysis

Currently Swiggy operates mainly in two markets, **food delivery** and **quick commerce** (Swiggy Instamart). Both the markets are growing year on year but the competition is increasing at the same rate. Accordingly Swiggy needs to adopts new changes inorder to regain its lost throne to Zomato.

- 25** The Indian food delivery market is projected to reach ₹2.12 lakh crore (approximately **\$25.4 billion**) by 2030, growing at a compound annual growth rate (CAGR) of 18%.
- 95** The number of eating-out occasions is anticipated to grow from 60-65 times a year in 2023 to **90-95 times** a year by 2030.
- 35** The preference landscape shows that Zomato is favored by 43.11% of respondents, while **Swiggy holds 35.33%** of the preference, highlighting a competitive edge.
- 57** Swiggy faces competition from Zomato, holding a market share of **56-57%**. However, Swiggy continues to grow by diversifying offerings and enhancing customer service, including rapid delivery and cloud kitchens.

Swiggy Bag Advertising Initiative

Place removable ads on Swiggy delivery bags to subsidize costs, create new revenue, and increase rider loyalty while offering targeted local advertising.

Cost Reduction

Subsidize bag costs through ad revenue

Rider Benefits

Extra income for riders, proportional to deliveries

Targeted Advertising

Targeted, cost-effective local advertising

New Revenue Stream

Additional income while solving operational challenges

Stakeholders Impact

- Riders: Higher earnings, lower costs
- Swiggy: Loyalty boost, new revenue
- Advertisers: Targeted local reach
- Customers: Potential promotions

Implementation

- Removable/changeable ad panels
- Localized targeting system
- Revenue sharing with riders
- Regular content updates

Projected Impact

- **The bandwagon effect** would play role here when people will see most riders with Swiggy Bags they will have an higher tendency to order from swiggy.
- There would be an **increased revenue** for both swiggy and the riders.

Swiggy "Bitez"

-  We propose launching "**Swiggy Bitez**," a quarterly campaign inspired by Spotify's popular Wrapped feature. This initiative aims to enhance personalization on the platform by categorizing users into groups of like-minded food enthusiasts, making them feel part of a community.

How Its Designed

- Upon analysing the trends we curated **5 categories** in which people can be grouped based on their food preference
- Colors and designs used are according to the **pyscology** of users to have an increased engagement and personalization

Key Inclusions

- Foodie Category
- Frequent Restaurants
- City's Top Restaurants
- Loyalty towards your Favourite restaurant
- Favourite Orders

Projected Impact

- A feeling of personalization with the app which would eventually increase the use over competitors
- Hype of Swiggy Bitez as people would share their Foodie Category on social media handles

Swiggy Recipes

A new app feature aims to help users who **struggle while cooking** due to uncertainty about ingredients and their quantities. This feature will offer accurate recipes that include easily available ingredients, with quantities customizable based on the number of servings needed.

SWIGGY RECIPIES REVENUE

Order Ingredients

- In the Swiggy Recipe section there would be an option in the top right corner to Order Ingredients of the recipe from Swiggy Instamart in 10 Min
- This option would be **customizable** as there is possibility some ingredients already available for the consumer, thus he will get to select which all he requires

Order Online

- In the Swiggy Recipe section we will have recommendations of best restaurants from which the consumer can order the recipe with a discounted price.
- This would help in playing with the **consumer psychology** as we are pushing the consumer to an easier way to order his desired food at one click instead of putting in efforts to make it

Implementation

All Recipes will be curated by the **top chefs** and top restaurants and approved by a **3-trial process** so that our solution becomes the most reliable one in the market.

Through this we will be collecting user data which would in turn help us providing better suggestions to users based on their food preferences through the Swiggy Recipes feature.

Recipe Curation

User Comments

User Data

We will have user comments section under each recipe where users can interact and post their review on the recipe, any suggestion for other users and get user **badges** for having more comments and for trying more, hence creating a **gamified** environment

Swiggy “Ghar Ka Khana” relaunch of “Daily”

Swiggy to relaunch Daily in a new form “**#GharKaKhana**” which would cater the audience who require a daily fresh home-cooked meals service in a tier 1 city with a good taste, maintained quality and affordable pricing targeting the office going working class.

Daily Shutdown

Weak Demand and Low Traction

Swiggy Daily was shut down due to weak demand. It struggled to attract a sufficient customer base, leading to its closure.

Strategic Realignment

The discontinuation aligns with Swiggy's focus on core offerings. The company aims to streamline operations and allocate resources efficiently.

Financial Viability Issues

Swiggy faced challenges in achieving profitability with Daily. Financial strain made it hard to sustain operations in a competitive market.

Market Competition

The competitive food delivery sector challenged Swiggy Daily. Numerous alternatives made capturing market share increasingly difficult.

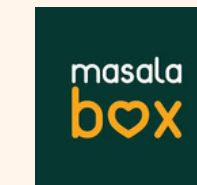

Focus on Existing Services

Post-shutdown, Swiggy will concentrate on successful services. Zomato and Swiggy Genie will receive more resource allocation for growth.

Covid-19

As the surge of covid in 2019 all people were locked at home and stopped ordering food online due to the fear of contamination.

COMPETITORS

In the current daily home cooked food market the biggest monopoly is established by Zomato Everyday followed by 4 major smaller competitors catering in specific areas currently

Plan of Action

Restaurant Partnerships

- Tie-ups with underperforming restaurants for increased revenue.
- Local restaurants can benefit from Swiggy's platform.

Quality Assurance

- Swiggy will white-label home-like food as needed.
- Ensuring hygiene, packaging, and regular quality checks.

Flexible Plans

- Daily plans will allow weekend or evening orders.
- Special offers to encourage additional purchases on Swiggy.

Recipes

Swiggy One

UI/UX

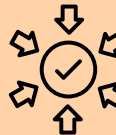

Challenges Faced

Pricing

 The pricing of Swiggy One is 5x to 6x the pricing of Zomato Gold which makes it an unfavourable purchase for consumers in front of its competition

Positioning

 Swiggy one comprises of both Food delivery and grocery delivery thus not catering people who are interested only in one of these categories and also a reason for increased pricing

User Sentiment

 Swiggy one's UI/UX doesn't give a premium feel to the consumer hence not triggering the psychology. Further the naming in itself isn't very self explanatory and giving the feel of a premium subscription.

Marketing

 Swiggy one lacked alot in marketing their premium subscription to the audience. Upon primary research we found that 4 out of 5 people in tier 1 cities don't know about swiggy one yet but are aware of Zomato Gold.

Plan of Action

Renaming Options

Swiggy Plus

Swiggy Platinum

Swiggy Select

Revised Subscription Plan

SWIGGY SELECT

₹50 for 3 months

Food

- ✓ **Unlimited Free Food Deliveries**
Above ₹199, on all restaurants within 7km
- ✓ **Upto 30% Extra Discount**

Above ₹199, on all restaurants within 7km
- ✓ **Food**
- ✓ **Unlimited Free Food Deliveries**
Above ₹199, on all restaurants within 7km
- ✓ **Upto 30% Extra Discount**
Over and above other offers
- ✓ **No Surge Fees**
During peak hours and holidays

Enhancements

Colors of UI

The colors used on the UI page should have an premium feel and show a prominent change from the normal app.

Illustration

Non-premium users are in the process of placing an order, we should highlight the significant savings they could achieve by upgrading to the premium plan. This includes illustrating how the premium plan can offset delivery fees and provide additional discounts on their orders.

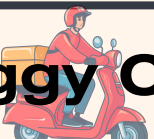

Positioning

The two different subscription plan helps cater both types of users one who use swiggy just for food delivery and not willing to pay extra for free instamart delivery and the other who want a combination of both in one plan so that they dont require to use different apps.

Premium user retention

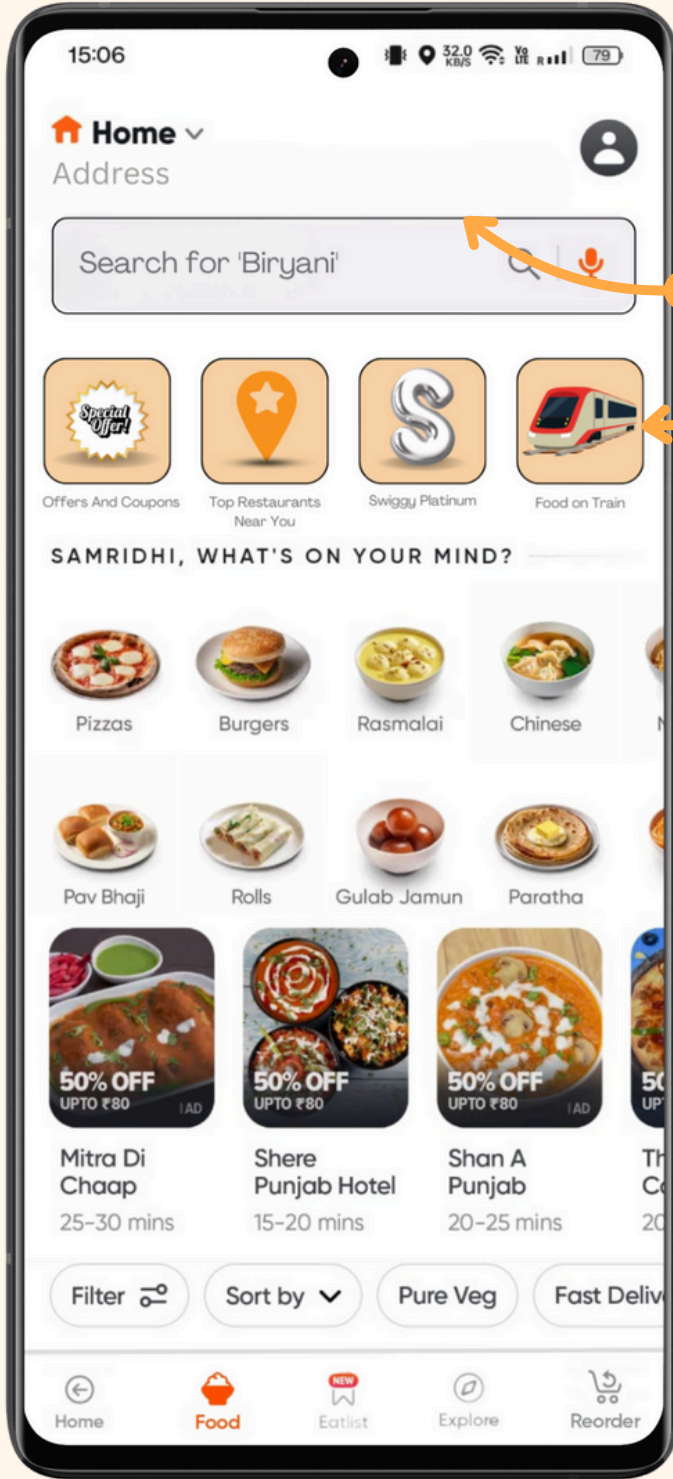

Premium subscription users will experience an enhanced app design featuring a new logo and updated interface colors. Additionally, they will receive frequent messages such as **"Your order is our priority"** to ensure they **feel valued**. This approach aims to demonstrate that choosing the premium subscription is worthwhile and that the app is **committed to meeting their needs**. Ultimately, this strategy is intended to help retain our premium users.

Swiggy UI/UX Improvements

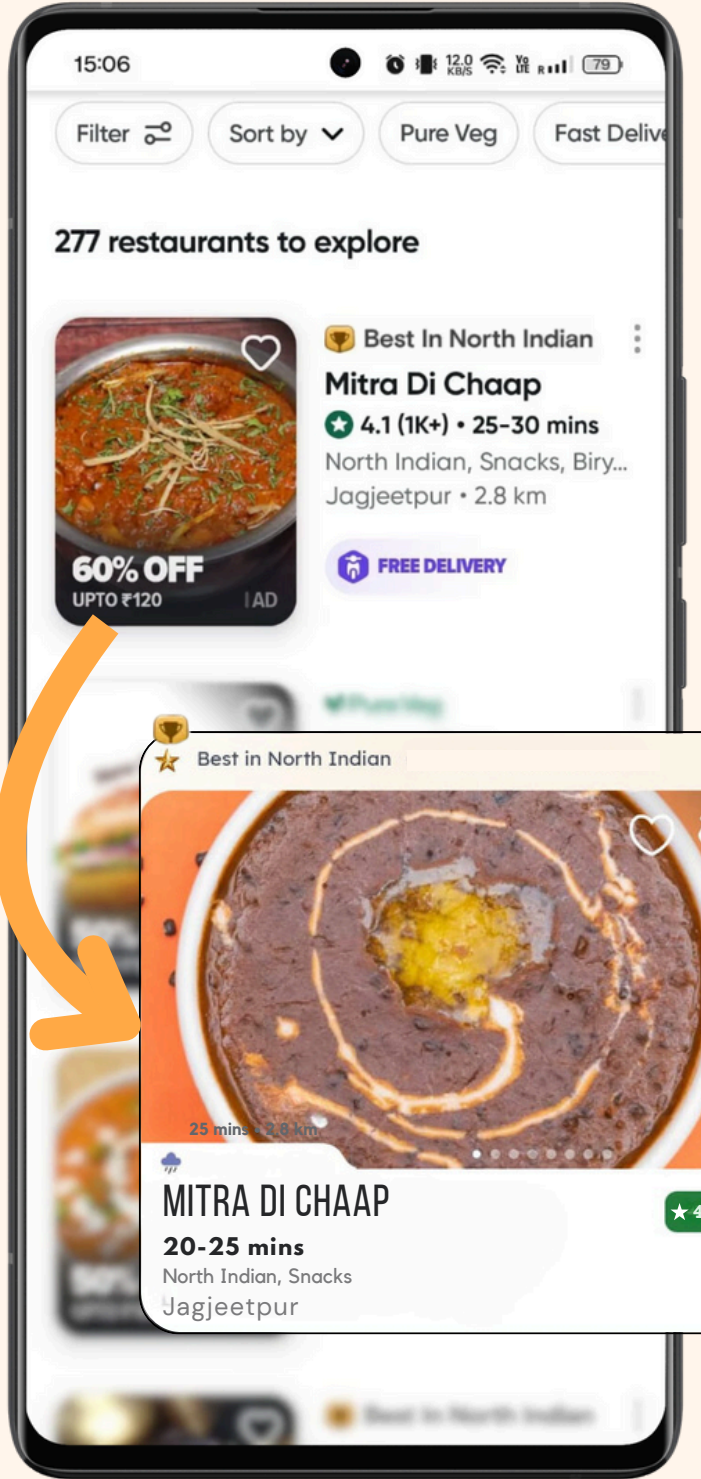

Home Page

Highlighting the search bar

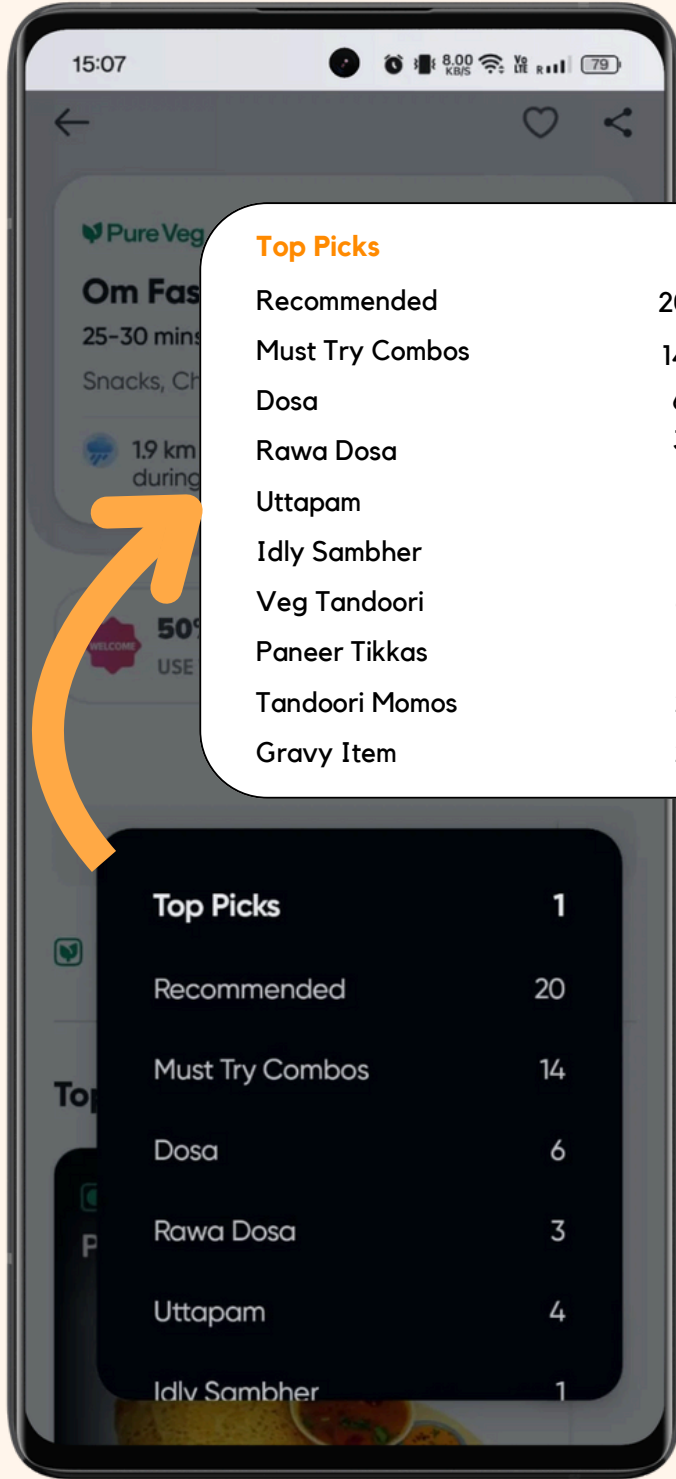

Adding some easy-to-access shortcut options

Restaurants List

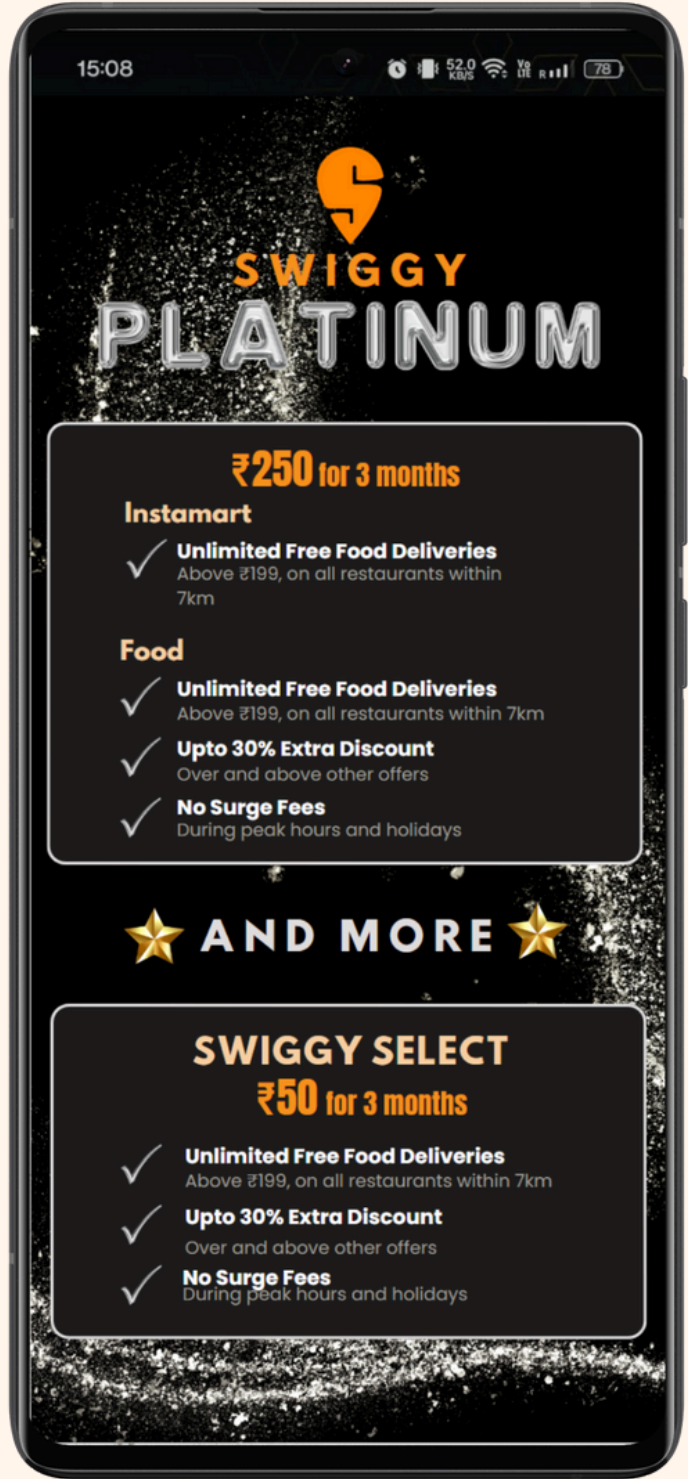

A bigger restaurant list with slide show of images will bring more customer's attention.

Menu

Contrasting menu color with the background will give it a pop-up look.

Premium Plan
